Organization Science

Zur Shapira,
New York University, Editor-in-Chief

Organization Science is widely recognized as one of the top journal in the fields of strategy, management, and organization theory. The journal publishes groundbreaking research about organizations, including their processes, structures, technologies, identities, capabilities, forms, and performance.

Organization Science publishes fundamental research from different disciplines, such as organizational behavior and theory, strategic management, psychology, sociology, economics, political science, information systems, technology management, communication, and cognitive science. The journal welcomes research at different levels of analysis, including the organization, the groups or units that constitute organizations, and the networks in which organizations are embedded.

Organization Science is ranked among the top journals in management by the Social Science Citation Index in terms of impact and is widely recognized in the fields of strategy, management, and organization theory.
